Subject: RE: August 5 Update on CES Environmental ER (Houston)
Date: Wednesday, August 06, 2014 12:32:52 AM

CeCe:

We do need to have a discussion about the personnel and the charge rates for those charging the project and the number of hours each is actually charging each day. We do have some high dollar people on the site that are doing fence repair which may need to be remapped.

On-site - Main Personnel:

Tom

Jessica

Fence Evaluation/Repair:

Daniel

Greg

Haz Mat:

Ben

Off-Site Support (What type of hours are we talking about here?)

Kristie

Cece

Twyn

Any others. It seems like we are blowing through the money very quickly. I requested \$75K and we have already seem to have blown through it.

Thanks

Gary

Subject: August 5 Update on CES Environmental ER (Houston)

Response activities continue on the CES Environmental site in Houston.

Below is a summary of site activities conducted Tuesday:

- **Five STARTs on site**
- **Air monitoring on and off site**
- **Collected 9 soil samples for analysis**
- **Cleared site brush**
- **Measurements for perimeter fencing repair**
- **Documenting spill pathways of chemicals and surface water that has left site into surrounding residential neighborhoods and municipal storm sewer system**
- **Initiated Flexviewer site**

- Evaluated tanker access for sampling
- Continued cursory inventory of drums, totes and tankers
 - o integrity of containers,
 - o safety/compatibility of chemicals as labeled
 - o volume of container contents

Planned activities for Wednesday:

- Four STARTs on site
- Clear site brush
- Collection of air samples from offsite (neighborhood) locations
- Ongoing repair of perimeter fencing
- Air monitoring on and off site
- Activity based safety planning for Level B sampling

Planned activities for Thursday:

- Four STARTs planned on site (includes medical monitoring personnel)
- Mobilization of 30' all terrain boom lift
- Collection of air samples from onsite locations
- Collection of waste samples from two onsite tankers in Level B PPE

See updated cost estimate (attached) for the work conducted and projected cost through Thursday (August 7) = \$ 79,000

Please let me know if you have any questions.

Thanks
